An Independent Income for Your Wife

It would give you intense satisfaction, would it not, if you could setil, on your wife an independent income?

Money coming to her regularly, never failing her, no matter what misfortunes overtake you, what lapse or shrinkage in your in come? If you adopt the simple and practical "Bank of Italy Trust Plan" for Creating or Enlarging an estate, you can accomplish this laudable

You can create, with partial payments, an Estate entirely separate from your own, and not subject to the vicissitudes of your own fortune.

You need not segregate from your income or profits at one time sufficient cash or securities to create this Estate.

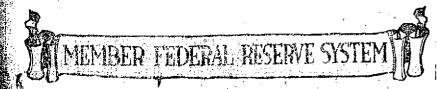

You can arrange that at your death it will pass to her at once, that the income from it will not be interrupted by probate proceedings and that it will be kept securely, always, for her benefit.

We have prepared a booklet which explains this plan fully. It opens remarkable opportunities for the man of moderate means. Ask a booklet, The "Bank of Italy Trust Plan" for Creating or Enlarging an Estate.

CONFLICT TEMPORARY

The fight begun by Theodore Roosevelt and Gifford Pinchot, and now continued by the Forest service and the National Park service, for the conservation of the natural resources and the preserva-tion of the natural beauties of the United Statest will not have to continue forever. If we can keep it up through this generation, the future will doubt-less be safe. For the fight is now between idealism and profit. In the future, both of these will be on

The great redwood groves, along the highway of Northern California, will some day be worth more standing than cut into grape stakes. The High Sierra will be worth more for scenery than for sheep pasture. It will pay better to cut lumber conservatively than destructively. It will be possible to preserve both our water power and our waterfalls, and both will pay. It will pay better to develop coal and oil economically than extravagantly. Our waterfronts will be worth more beautified than ism and profit will be on the same side. Our sucdreams, but facts. Beauty will be a capitalized the botckeeper, to reckon with if he seeks to of redistribution. devastate the mountain. Probably the same com-

idealism is needed, for this one generation. After that, profit and beauty will coincide, and each will

VOICES FROM THE TOMBS

The newest entrants in the presidential contest are William J Bryan and Nicholas Murray Butler New York friends of Dutler announce his candidacy. and Bryan advocates the candidacy of some person well known to the Chautauqua circuit, whose tame is Jennings, and who has been a candidate most efficienting since 1896.

They are an interesting contrast, these veterans on a former age who thus aspire to lead the Repub-lican, and Democratic parties back into the past. Butler Brilliant, learned, polished, the only survivor who can still make standpatism plausible, the friend and the exponent of America's aristocracy, who lacks nothing but ideals, democracy and modernity to make him a great leader; Bryan crude, unlearned and junitained, a true democrat, whose heart beats discoveries which he would still have made if he had lived out the normal term of his useful life. visions lack nothing but intelligence and whose plans lack nothing but knowledge and practicality to ectually, in precisely the qualities in which the other is strong. Obviously both are impossible.

IF GOLD WERE CHEAP

can be extracted in some quantity. If it turns out the opening paragraph of Doctor Osler's article on to he another Klondyke bonanza, it will make acrew the History of Medicine, in the Encyclopaedia people rich and it may or may not affect the Americana;

of value would immediately have to be based on something like living. Fisher's ecomposite dollar, has and funch based of the toming actress now as a large number of commodines taken in certain properties. It would mean that the governments of the world would have to buy in existing coined gold and to redeem existing paper securities in the new standard of other values and would decan to be the standard of other values and would decan to be the standard of other values and would decean a commenty ny 18cti. And, curiously enough it would be become a very neeful metal. Gold is not hard like planet and the likelyam to be talk its fines or per manesting indeed, with the additional advantage of ruthless meas. The man advantage of ruthless controlling is it was a man advantage of ruthless and advantage of ruthless to be made a system to be made a system to be made a system to be advantage of ruthless controlling it it was a man advantage of ruthless and advantage of ruthless and advantage of ruthless to be made a system to be made a system to be made a system to be advantage of ruthless controlling it it was advantage of gold, however, a see and present to be shade which is the mean advantage of ruthless and advantage of ruthles

SOBER AND JOYOUS

New York hotels aunounce that they have given up all effort to have a joyous New Year's eve, since no such thing is possible without booze and there is not enough of that to go around. Fresho, at the other end of the country, is going to try the experiment of seeing whether hie can be enjoyed sober on the last night of the year. Whatever may be the success or failure of the Fresno experiment, it is at least the one which will have to be followed permanently everywhere. It we can not be glad and sober we shall have to be sad and sober; and since sadness is not a good thing, possibly we had better gradually learn that there is such a thing as natural y as well as the artificial exuberation superinduced sy overdoles of alcohol. t as much fun while it lasts and it feels a lot better the morning after. The idea that we can not celebrate without booze is as foolish as the idea that you can not have sport without gambling. Both the pure associates. If we had always caten to are pure associates. music we would probably think that we could not cat without music. But baseball has demonstrated that good sport is possible without gambling and unless America is to become a dull, gray and lifeless country which celebrates nothing, we shall have in demonstrate to the world that good celebrations are still possible to a sober people.

SIC TRANSIT GLORIA MUNDI

So passes the story of the world. Austria is bawaing the historic art treasures of the nation for food. Lenine is sneaking out the Russian crown lewels to pay his propagandists. Sooner or later the pictures will adorn the palaces of American billionaires and the crown jewels will sparkle on the garters of Patisian dansenses. Greed and lust will take their toll, as the only things that have the distigured. Then there will be no conflict. Ideal-price, and the symbols of the glories of two nations will have become articles of trade. The Austrian cassors may be poets or bankers, artists or mechanies. Probably, like ourselves, they will be a little
loover can raise the money on the security of the
of everything. It will make no difference, then When our dreams come true they will be no longer poned a little longer. Then the world will go on its but facts. Beauty will be a capitalized the pawn of temporary need will begin the process

The lewels matter little except that, being worth devastite; the mountain. Propany the same com-panys will own both hotel and mill, and will so ad less in themselves, it, is a pity their halo can not-minister the properties as to conserve the profits of stime for Russia's past rather than be the plaything both. Or it the era of capitalism passes, then the of the parasites of modern capitalism. Royalty may same socialistic stockholders who want cheap him-have been no better than billionairism, but it is at her for houses will want good stiade and scenery for least dead and entitled to a monument. Besides, it their summer onling. They will see to it that they lived longer and was handsomer. Crown jewels befit it better. But pictures and statues are a sadder So the conflict of interests is temporary. The fiasco. They have a real value immeasurable in present task is to preserve the permanent assets money. The old ones are living embodiments of present task is to preserve the permanent assets by the property of the property of the property of the permanent of dead ages. They dught never to become mere the property of the property o No one but a whole people ought to be, or permanently can be, rich enough to afford them. princes were the custodians of a people's wealth; they gathered them. Now that railroad kings and iron dukes have become the tribute takers in stead, they will scatter them. Finally, when the people resume their own, some American govern-nicut will establish in Washington a museum of Europe's past. It ought not to be. Europe's past. even Germany's or Austria's past, belongs to the places where it was enacted. No temporary pawnbroking era should have power to displace its permanent monuments.

DR. OSLER'S DEATH

Doctor Osler is dead, seventy years old and still so vigorous until the last quick illness that his death will be lamented as premature. Medical science will still miss his leadership and must do without th

. But the interesting thing is that the only reason why the death of Doctor Osler is news for the genmake hint an inspiring leader. Both are physically cral public, while the death of Doctor Vaughan or atill, in their prime; both represent spiritually an refine, both represent spiritually and end of the medical profession is because of the cisely the middlifes in which the other popular delusion that Doctor Osler made himself famous by the dictum that men are useless after orty and should be chloroformed at sixty. Doctor Osler was himself nearly sixty when he is alleged to have made that statement, and had by that doctrine been useless for nearly twenty years. Of course he Rumor comes of the discovery of a "sixty-mile never said anything of the sort. But now that his ridge of gold" in western Australia. This does not, death brings him for the last time into the news. of course, mean sixty miles of gold. It means sixty it may be interesting to reprint something which he miles of a formation from some of which some gold did say on this question of old age. Following is

economic relations of the world's gold supply and the world's standards of yahies and business stating the world's standards of yahies and business stating life of English-speaking men has doubled. A few life a soling as now, and some strong or favored ones the effect if this discovery were really sixty miles of more or less solid gold. That would make gold as cheap as iron, and would abolish all the standards in the world now based on gold. What would be at the effect of such a discovery in the interior of another the feet were really sixty miles in the world now based on gold. What would be at the effect of such a discovery in the interior of accessible pocket in the bowls of the earth?

Of course it would mean that the world's standards and seed the enterior of accessible pocket in the bowls of the earth?

"SAY WHEN!"

More Truth Than Poetry - By James J. Montague-

IT'S A COLD, HARD WORLD

Your hair was brown and your eyes were blue And off you were fair to see,

But my love was vain; for a girl like you

Was not for a lad like me.

I knew that my dreams were liopeless, dear,

And life loomed dead and dun,

For you were the child of a bank cushier And I was a plumber's son.

I saw you first when I came to mend A leak in vour kitchen range, And I felt my fluttering pulse ascend To a pitch that was new and strange. I saw you passing my father's shop a wonderful new Spring hat; And I thought my hammering heart would stop. And it almost did-at that.

But caste is a hard and cruel thing. And only too well I knew That the doors of the banker would never swing

to a plumber that came to woo. I hid my love in my breaking heart, While my hair grew gray and thin, And the ways we took led far apart As I dreamed of what might have been.

And though today I might make you mine-For single we both remain-The same impassable social line Signature Still stretches between us twain. For all of my moneyed friends would sneer And whisper, "That isn't done!"; If the child of a common bank eashier

Electricity Has Increased Only 15%

The appraisal of your power company's properties by the Railroad Commission in 1916 resulted in a downward revision in rates amounting to a reduction of 15 per cent. These rates were based on 1916 operating and construction costs. Today your power rates are still based on these 1916 costs plus a 15 per cent surcharge, which becomes ineffective January, 1920.

Before 1916 the annual agricultural pumping rate was \$50 per horsepower. In 1916 this rate was reduced to \$42.30. In January,

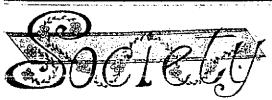

1919, a 15 per cent surcharge was added, increasing this rate to \$48.645---still lower than the pre-war basis

There has been a serious deficit in the authorized rate of your power company's earnings, due to inadequate rates in face of constantly increasing costs of operation and construction. This deficit threatens financing for the construction of more power houses. A revision and increase of present rates is necessary before additional electric power can be provided.

Every expense entering into the production of electricity in the State of California is supervised by the Railroad Commission, and every rate charged consumers is subject to the approval of the Railroad Commission.

Your power company asks that you give its application for an increase in rates open-minded, fair and impartial consideration. We ask only for a just and reasonable earning---rates that will serve the best interests of the San Joaquin Valley. Write us to learn how the additional development of hydro-electric power will benefit you personally, your business, your city and the community in which you live.

San Joaquin Light & Power Corporation

LAND LAND

A VINEYARDIST AND ORCHARDIST of Kingsburg, Cal., has formed a Realty Company in Porterville, Cal., which is the largest Realty Organization in the San Joaquin Valley. Mr. Lindley being familiar with that district, and thoroughly understanding those soils, has for many years past realized that some day that district would have the premium vineyards and peach orchards of the state, as the soil lying around Porterville, Poplar, and Woodville, are especially adapted for this paragraph. cially adapted for this purpose.

WE HAVE BEEN WORKING on this for some time (lands for vineyards, and peach orchards our specialty) and we now have listed one of the greatest bodies of soil for this purpose, that any Realty Co. has ever offered to the public. Our listings consist of Raw Land and Improved Properties. Thousands of acres of Raw Lands, a white ash, silt and sandy loam, are priced at \$100 per acre and up. We can give you any acreage you desire of our Raw Lands.

IMPROVED TO ALEALFA, pumping plants, houses, barns and other outbuildings. Price per acre, \$175 and up. These places are large and small, most any size you wish.

COME TO PORTERVILLE and let us show you these lands, so that you may make your own comparisons, or make a date with us that we may bring you down, as we have a car running from Porterville to Kingsburg, Selma, Fowler and Fresno.

DO NOT HESITATE, for you will never have another opportunity to buy such lands so well located, so well watered, and so free from alkali and hardpan, at such extremely low prices,

Vineyard and Orchard Realty Co.

Ampico Triumphs With Chicago Symphony Orchestra

the living panist, and at the sace time as a sobist with one of the leading symplony orchestral organizations of the country, the Ampico has again triumphed according to the unanimous opinion of the Cacago musical critics.

While Lee Orastein sat with folded arms the Ampico reproduced the first movement. of Rubinstein's Concerto in Decinor, in perfect synchronization with the Chicago Syms, phony Ordestra, the peans standing out from the heautiful tonal background of the priony conversion, the paint suggesting our from our heading constraint mater the batton of freedomick Stock, just as if Leo Ornstein himself were at the keyhoard. Then when the paint gave his interpretation of the rest of the composition, the difference was impered to both were thristein.

Opinions of the Chicago Music Critics:

Corleton Rushert in the Evening Post:
Other Ger Tane From This Instrument, Which Has Quality, One Might
Almast Say Personality, (Rere it Shiding and Sanare-the Sense That
You Are Hearing the Waste Played, Ant Mechanically Reproduced."

Mourice Resented in the Holly News,
— of this remarkable counterfelt of the playing of this young and gifted
plants was noticed a reportion which in hields of detail, of numer and

Salvation Army to Give Away 300 Toys

With three hundred toys of which one hundred are dolls to delight the hearts of that many young mothers. The Subration Army will have a Christmas tree this evening for the poor kiddles of Fresno at their hall at \$27 Van. Ness avenue. A program of recitation and songs has been prepared and will be followed by refreshments. The entertainment will start at \$0 clock.

Capitalists Behind Enterprise

Open Negotiations for Lease Down-Town Property

Backed by both local and San-Francisco capital an amusement enterprise formed to give Fresno its third but largest and finest chieff but largest and finest chieff palace is centring consummation, according to reforts yesterday.

cording to resorts yesterday. Planning in investment of prob-ably \$400,000 the company has open-ed negotiations with representatives of the Bradley estate, owning prop-erty at the corner of Mariposa and a streets, for an extended lease. The initial plans of the promoters was to construct a theater building fronting on I street as far as the present Strand.

on I street as far as the present Strand.

While the regotiations for this site are only tenantive further progress on the deal is expected within a few weeks. It is understood that the syndicate is prepared to bound its unidding operations within a short time after the base for a satisfied site can be obtained.

For several weeks the local representative of the syndirate has been engaged in rounding no and seeming figures on attractively situated down-town properties and, it is understood, his report formed the livadicy property extending from I street to the alley immediately to the east, giving a depth of considerably more than 200 feet.

The materialization of the suferprise will naturally hings upon the suredy consummation of the desir-

The materiulization of the calerurise will inturate language on the
speedy consummation of the desiruble leave. The building projected is
expected to be one of the duest inctart structures in the west and to
measure up to the metropolitan
standards of elegance, convenience
and size.

A representative of the liradley interests' vesterday admitted that he
had been approached by agents for
the amusement enterprise but stated
the ingotificial bad not progressed
to any definite point.

Giant Eucalyptus Trees Cause Suit for \$1000 Damages

Some picturesque, ancient and giant encatyptus trees which have long been a landmark in Chinatowa are the cause of a minus damage action brought in superfor court yesterday. The trees, six in number, grow in the yard of the American Misstonary Society mission and close to the wall of a building owned by Rarges. Chiming that the trees have damaged his tooper, y extensively Pargen

- Uniming that the free have dain aged his properly extensively Parrei has hrought suit against the mission may society for a judgment of siton Overkanging the roof of the neigh-boring Luiding the trees drop hat leaves and refuse clogging the drai pipes and roof gutters, the complain ant asserts.

pipes and roof gutters, the compulinant asserts.
But the greater damage has been caused by the trees sending their beavy roots under the walls of his indiding with the result that the walls have been cracked and endangered, the compilant says.

In addition to a monetary satisfaction of his chain, Pargen seeks the destruction of the trees.

COTTON GROWERS MEET IN WEEK

Future of Industry in San Joaquin Will Be Discussed

Lotton growers of the San Joaquity valley, and those interested in the entitivation of that staple, will gather in Fresno on Wednesday, January 7, to discuss the future of cotton production in this section. The session of the growers will be held in the council, chamber of the gity half opening at 1:30 angle continuing throughout the afternost throughout the afternost of the Fresno County Fram Bureau, the State College of Agriculture, the State College of Agriculture, the State College of Agriculture, the State Denathment of Agriculture and the Fresno County Chamber of Commerce. Frof. Leroy it, Smith will preside.

The program for the meeting will be announced later, from the office of the fearn bureau, when the names
